Dear Mr Hossen

Just a short note to thank you and your team at Option One for your assistance in helping us in getting the home loan we so needed.

You have succeeded where others have failed and I believe it is due to your professionalism, hardworking attics, understanding of the finance world and contact helped us is getting a great deal that not only secured the purchase of our \$5m home but no doubt will save us buckets load of money in interest, fees and charges.

What makes your achievements even greater is the fact that we are in the middle of the GFC and yet the result are as if it is still the good days of 2007...

Please find attached a bottle of Blue Label as a token for our appreciation
